

PoliLam

As you journey with us through the pages of our collection, we want our passion for design, interiors, and life to resonate and inspire. At PoliLam, we recognize that our surroundings have the power to energize, to motivate, to calm, and to comfort us. We understand that the only approach to true design is to get out into the world and experience it for ourselves.

The world—including the world of laminates—is changing. At PoliLam, we strive to be innovators in our industry. We create a quality and design-driven product, with as little environmental impact as possible. We take pride in carefully researching and selecting each of our exclusive designs. We marvel at nature's wonders, and we recreate what we see without diminishing it.

At the core of our philosophy is a focus on three things: the importance of color to generate emotion; the importance of texture to emphasize quality; and the importance of culture to bring it all together.

Color. Texture. Culture.

PoliLam

Design Driven Products.
The Importance of Touch.
Ecocentric and Globalized.

Color. Texture. Culture.

Bring Nano Tech to Your Surface

We introduce nanotechnology for one simple reason: to reduce life's trivial strains to improve our end-users' quality of life.

Appealing to the senses, **ACE Surfaces™** captivate with bold designs and a touch that is as smooth as baby soft skin.

Additionally, you'll find that micro scratches can be thermally repaired, making your day to day routine a bit smoother.

ACE Surfaces™ are the surfaces of the age. Their fingerprint resistance makes cleaning a breeze. Most importantly, low formaldehyde emissions contribute to a healthy lifestyle for ourselves and the environment.

A photograph of a forest with tall, slender trees. Sunlight filters through the canopy, creating a misty, golden atmosphere. Long shadows are cast on the forest floor, which is covered in fallen leaves.

*Look deep into nature,
and then you will understand
everything better.*

Albert Einstein

WOODS

Pay Respect to the Trees

Our Woods collection is inspired by this incredible source of life. Majestic in size and graceful in aesthetic, trees are the lungs of our Earth. At PoliLam, we honor them by faithfully replicating their brilliance and elegance. No two wood grains are ever the same—they are uniquely different and beautiful in every grain.

Trees are an inspiration. An inspiration that we strive to recreate, without diminishing. We pay homage to the trees and thank them for the air that we breathe.

Jonathon Swift

PATTERNS

Objects of Life

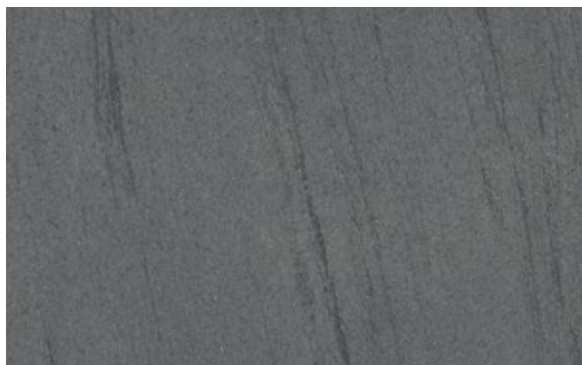

Humans are planners, designers, and creators, taking inspiration from the patterns around us. We use patterns to create language, we use patterns in the sciences, and we use patterns in aesthetics. Humans adapt and manipulate the patterns that they see in the natural world, as well as those they see in the artificial world.

Our stunning Patterns collection includes marble, concrete, terrazzo, denim and fabric, tempered steel, metallic industrial looks, weaves, grids, waves, paisley, abstract, and more. It combines visual as well as textured patterns.

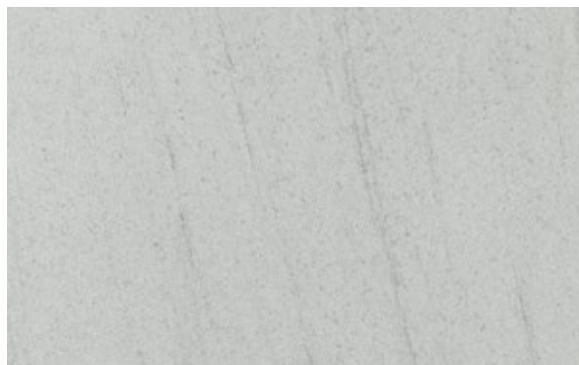

PoliLam is constantly responding and adapting to the changes that are happening in the world.

Nature changes, architecture changes, tastes change. And so do we.

A vibrant, colorful perspective of a hallway or corridor. The walls and ceiling are composed of vertical wooden slats. The color of the slats transitions from a deep blue on the left to a bright yellow on the right, creating a rainbow effect. The floor is made of wooden planks. The perspective is from the end of the hallway, looking down its length.

I prefer living in color.
David Hockney

SOLIDS

The Subconscious Effect of Color

Color has a powerful effect on our brains. It appeals to our senses and impacts our emotions. It is the simplest, yet most important aspect of our engagement with our surroundings. Color has the power to set the mood, to attract attention, to influence, and to persuade. We can transform and perfect our environment using color—stronger shades can stimulate us and softer ones can help us unwind.

We believe in a mindful approach to color. Be aware of the colors you choose to surround yourself with, and how each color makes you feel.

What fire does not destroy, it hardens.

Oscar Wilde

LAVA Board

Additional Safety for Interiors

Our LAVA Board has a Class A fire rating. It guarantees to protect your interiors from one of nature's most destructive elements.

In addition to LAVA Board's certified safety feature, our collection emphasizes sleek, practical, and contemporary design. Our non-combustible, fireproof wall panel is the perfect solution for those spaces that need it most: hospitals, schools, restaurants, and more.

A wise man would never underestimate the power of Mother Nature.
